Education

University of Toronto 09/2022 - 04/2026
Bachelors (Technology Coding Society, Computer Science)

Experience

Reflectivity.io 05/2024 - 09/2024
Software Development Intern
- Developed project management skills by analyzing technological requirements and translating them into measurable, actionable tasks using **TypeScript and Python frameworks**
- Increased **resource efficiency by 18%** by refactoring and modernizing the backend middleware engine with improved input validation and optimized workflows, reducing development overhead
- Reduced **runtime by 6%** by updating and maintaining frontend and backend dependencies, ensuring libraries were up-to-date and vulnerabilities were patched while lowering infrastructure costs
- Performed **thorough code reviews** and strengthened testing processes, boosting team collaboration and ensuring high-quality code

Reflectivity.io 04/2023 - 08/2023
Software Intern

- Built efficient backend systems on AWS Lambda using the Serverless framework, enhancing scalability and reducing infrastructure overhead
- Created responsive web applications using front-end frameworks like Angular, optimizing user interfaces and improving site functionality
- Created detailed documentation for the development processes which lead to the implementation of efficient and modern coding practices

Projects

MediSense 01/2025 - 04/2025
Making OTC medicine more accesible
- Integrating advanced UI components for user-friendly healthcare price comparisons.
- Engineered a scalable **microservices backend** supporting real-time data aggregation and secure user authentication.
- Implemented **AI-driven price analysis algorithms** to identify optimal medication deals, enhancing savings and value for users.

FocusPulse 05/2024 - 01/2025
Gamify Your Productivity
- **Developed a full-stack web app** using React for the front end, the Chrome API for browser integration, and a suite of TypeScript microservices for backend functionality
- **Implemented customizable features** tailored for neurodiverse users, focusing on accessibility and improving user engagement with adaptive time management tools
